[CL-620CNC Video](#)

Main configuration:

- Working size: max 6-1/4" Diameter x 19-1/2" Length
- PC control system with internet connecting cable
- Cast iron steel lathe bed
- Three axes with German high precision Ball screw
- High Precision Taiwan Hiwin Square Rail
- Stepper motor and driver
- Lubrication system for X, Y, Z axes
- 1 pc of Alloy CNC working tool
- 1 Set of maintenance tools
- Working Voltage: 220V, 60hz, Single Phase
- Power 1.5 KW

Advantage:

- Computer numerical controlled
- 300 kinds drawing gallery special for round beads
- Professional wood beads machine control system, easy to operate

- Super quality wood lathe cutter special for any kind of wood, with long lifespan
- Square guide rail and high precision ball screw transmission
- High precision and stable working performance

Operation:

- Input required drawing in the software
- Set Bead diameter, select the shape, size.
- No programming needs, easy to use.
- You can also design your own style, drawing of contour line, also can support with BMP, JPG etc format

Cutter lifespan:

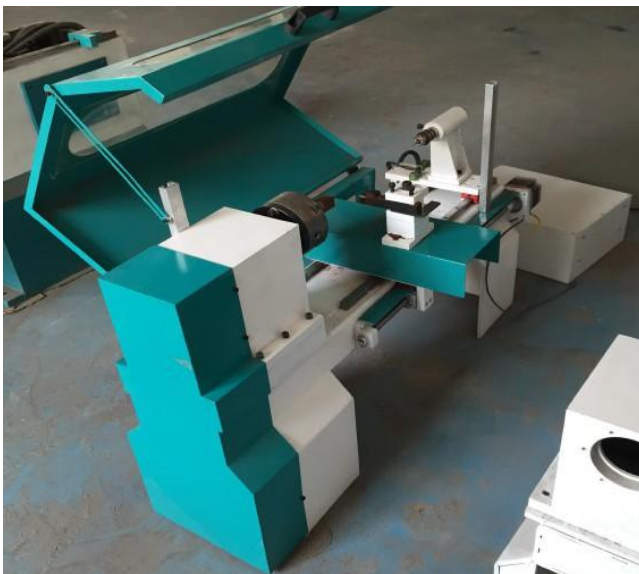

- Adopt super hard alloy CNC cutter with long life of usage

Processing speed: Example:

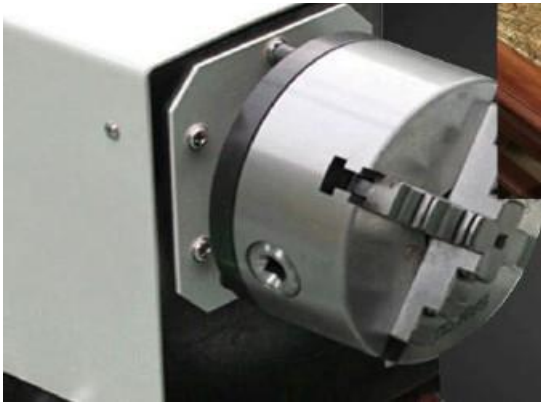

- Beads shall prevail, Rosewood automatic Hole, 38 seconds per piece, 30 seconds without holes.
- Phoebe plays holes 25 seconds per piece, 19 seconds without punching.
- 1/4" diameter handball, 2 minutes one piece.
- 1/4" diameter and 11cm length hand-grip gourd needs 5 minutes

Application:

Bead, barrel, all kinds of pagoda, gourd pendant, hoist pieces, wood rhinoceroses' horn, cup, bowl, whip, cigarette holder, eggs, ashtray, scroll painting head, wooden handle etc.
